

Dear Provider,

Enclosed you will find a packet of information that should help you in meeting the USDA's requirement of providing a Child Nutrition label (CN label) or a production formulation statement when you serve a processed food.

What is a CN label or product formulation statement? A CN label is a product label that contains a statement that clearly identifies the contribution that a product makes toward the child nutrition meal pattern requirements. A product formulation statement comes directly from the manufacturer that gives specific information about a product including the total creditable amount of the product. This form is on company letterhead and is signed by a company representative.

What's the purpose of CN labels or product formulation statements? Certain products such as chicken nuggets or patties, fish sticks, corn dogs, etc. there is a mix of ingredients. It's not always easy to tell how much meat or bread a product provides. A CN label or product formulation statement spells out the quantity of the product that's allowable.

We have tried to help you by putting this booklet together. You will find product formulation statements for some of the most commonly used items. You will need to purchase the exact brand and type of food listed on the product formulation statement. For example: Banquet Original Chicken Nuggets, check the code # for accuracy (we have included pictures for you too). If you are serving a processed food when a review is conducted, you will need to have this information, in addition to the package, available for your monitor. If you decide to serve a processed food that is not included in our booklet, you will be responsible for getting the CN label or product formulation statement yourself. You can do this by going to the company's website and under contact us, send the company an email stating the following:

I am a Day Care provider located in Indiana. Indiana is now requiring day care home providers that participate in the CACFP to have a **CN Label** or a **Product Formulation Statement** on file for all processed foods we are serving in our day cares.

I am in need of the following Product Formulation Sheets so I can continue serving your companies processed foods.

|  |
|--|
| (List UPC # of the products you want) Example: |
| UPC:   |
| 75094 00237 chicken nuggets                    |
| 0075094 02310 corn dogs                        |

**Remember, this only applies to processed foods you serve.** If you want to avoid this whole issue, it's easy, just serve other foods.

We will continue to research different products and will give you updated information at your reviews. If you find information, please share it with us as well. As always, we strive to be a team with you and will do our best to help you!

**I Meat/Meat Alternate**

fill out the chart below to determine the creditable amount of Meat/Meat Alternate

| Description of Creditable Ingredients per Food Buying Guide | Ounces per Raw Portion of Creditable Ingredient | Multiply | Food Buying Guide Yield | Creditable Amount*                             |
|---|---|----------|-------------------------|--|
| Chicken ground w/skin                                       | .90   | x        | 11.20/16=.70            | .63  |
|   |   | x        |                         |  |
|   |   | x        |                         |  |
| <b>A. Total Creditable Amount<sup>1</sup></b>               |   |          |                         | <b>.63 rounded down to nearest .25 oz. .50</b> |

\*Creditable Amount – Multiple ounces per raw portion of creditable ingredient by the Food Buying Guide Yield

**II Alternate Protein Product (APP)**

If the product contains APP please fill out the chart below to determine the creditable amount of APP. If APP is used, you must provide documentation as described in the Example of Documentation on the next page for each APP used.

| Description of APP, manufacturer's name, and code number             | Ounces Dry APP Per Portion | Multiply | % of Protein As-Is* | Divide by 18** | Creditable Amount of APP*** |
|--|----------------------------|----------|---------------------|----------------|-----------------------------|
|  |                            | x        |                     | /18            |                             |
|  |                            | x        |                     | /18            |                             |
|  |                            | x        |                     | /18            |                             |
| <b>B. Total Creditable Amount<sup>1</sup></b>                        |                            |          |                     |                |                             |
| <b>C. TOTAL CREDITABLE AMOUNT (A+B rounded down to nearest ¼ oz)</b> |                            |          |                     |                |                             |

\*Percent of Protein As-Is is provided on the attached APP documentation

\*\*18 is the percent of protein when fully hydrated

\*\*\*Creditable amount of APP equals ounces of Dry APP multiplied by the percent of protein as-is divided by 18

<sup>1</sup>Total Creditable Amount must be rounded **down** to the nearest 0.25oz (1.49 would round down to 1.25 oz meat equivalent). Do **not** round up. If you are crediting both M/MA and APP, you do not need to round down in box A until after you have added the creditable APP amount from box B

Total Weight (per portion) of product as purchased 85g

Total creditable amount of product (Per portion) .50oz

I certify that the above information is true and correct.

This estimate of equivalents has not been evaluated by the FNS, or USDA.

**I Meat/Meat Alternate**

fill out the chart below to determine the creditable amount of Meat/Meat Alternate

| Description of Creditable Ingredients per Food Buying Guide | Ounces per Raw Portion of Creditable Ingredient | Multiply | Food Buying Guide Yield | Creditable Amount* |
|---|---|----------|-------------------------|--------------------|
| Chicken fresh or frozen boneless                            | .73   | x        | 11.20/16=.70            | .51                |
|   |   | x        |                         |                    |
|   |   | x        |                         |                    |
| <b>A. Total Creditable Amount<sup>1</sup></b>               |   |          |                         | <b>.50</b>         |

\*Creditable Amount – Multiple ounces per raw portion of creditable ingredient by the Food Buying Guide Yield

**II Alternate Protein Product (APP)**

If the product contains APP please fill out the chart below to determine the creditable amount of APP. If APP is used, you must provide documentation as described in the Example of Documentation on the next page for each APP used.

| Description of APP, manufacturer's name, and code number             | Ounces Dry APP Per Portion | Multiply | % of Protein As-Is* | Divide by 18** | Creditable Amount of APP*** |
|--|----------------------------|----------|---------------------|----------------|-----------------------------|
|  |                            | x        |                     | /18            |                             |
|  |                            | x        |                     | /18            |                             |
|  |                            | x        |                     | /18            |                             |
| <b>B. Total Creditable Amount<sup>1</sup></b>                        |                            |          |                     |                |                             |
| <b>C. TOTAL CREDITABLE AMOUNT (A+B rounded down to nearest ¼ oz)</b> |                            |          |                     |                |                             |

\*Percent of Protein As-Is is provided on the attached APP documentation

\*\*18 is the percent of protein when fully hydrated

\*\*\*Creditable amount of APP equals ounces of Dry APP multiplied by the percent of protein as-is divided by 18

<sup>1</sup>Total Creditable Amount must be rounded down to the nearest 0.25oz (1.49 would round down to 1.25 oz meat equivalent). Do **not** round up. If you are crediting both M/MA and APP, you do not need to round down in box A until after you have added the creditable APP amount from box B

Total Weight (per portion) of product as purchased 85g

Total creditable amount of product (Per portion) .50

I certify that the above information is true and correct.

This estimate of equivalents has not been evaluated by the FNS, or USDA.

Product name: Chicken Corn Dog Manufacturer: Foster Farms Product code: 95005  
 Case: 32.04 lbs Pack: 12-2.67 lb boxes Count 16 per box Portion Size: 2.67 oz

### I. Meat/Meat Alternate

| Description of Creditable Ingredients per – Food Buying Guide (FBG) | Oz per Raw Portion of Creditable Ingredient | Multiply | FBG Yield | Creditable Amount M/MA |
|---|---|----------|-----------|------------------------|
| Mechanically Separated Chicken 20-24% fat                           | 1.23 oz cooked                              | x        |           | 1.23 oz                |
|   |   | x        |           |                        |
| <b>A. Total Creditable M/MA Amount</b>                              |   |          |           | 1.23 oz                |

### II. Alternate Protein Product (APP)

| Description of APP, Manufacturer's Name & Code                         | Ounces Dry APP Per Portion | Multiply | % of Protein As-Is | Divide by 18* | Creditable Amount APP |
|--|----------------------------|----------|--------------------|---------------|-----------------------|
| n/a  |                            | x        |                    |               |                       |
| <b>B. Total Creditable APP Amount</b>                                  |                            |          |                    |               |                       |
| <b>C. TOTAL CREDITABLE AMOUNT (A + B rounded down to nearest ¼ oz)</b> |                            |          |                    |               | <b>1.0 oz</b>         |

\*18 is the percent of protein when fully hydrated.

### III. Grains

- A. Does the product meet the whole grain-rich criteria? Yes      No x  
 B. Use Policy Memorandum SP 30-2012 Grain Requirements for the National School Lunch Program and School Breakfast Program required beginning SY 2013-2014: EXHIBIT A

\*\*\*Indicate to which Exhibit A Group (A-I) the product belongs: B

| Description of Product per USDA Food Buying Guide (FBG)**                          | Portion size of product as purchased (A) | Weight of one ounce equivalent as listed in SP 30-2102 Exhibit A (B) | Creditable Amount<br>A ÷ B |
|--|--|--|----------------------------|
| Batter type coating GROUP B  | 1.44 oz cooked                           | 1 oz (28g)   | 1.44 oz                    |
| <b>D. Total Creditable Grain per Portion*** (rounded down to the nearest ¼ oz)</b> |  |  | <b>1.25 oz</b>             |

\*\*\*Groups A-G use the standard of 16 grams creditable grain per oz eq.

A 2.67oz serving of the above product (ready for serving), would contain 1.0 oz of equivalent meat/meat alternate and 1.25 oz bread alternate when prepared according to directions. I further certify that any APP used in the product conforms to the Food and Nutrition Service Regulations (7CFR Parts 210, 220, 225, 226, Appendix A).

**CHILD NUTRITION INFORMATION**

Product Name: Gorton's Breaded Fish Sticks made from minced fish

Product Codes: 44400 104100 Size: 115+ ct – 4 lb (1.8 kg) bag  
44400 105000 Size: 115+ ct – 4 lb (1.8 kg) bag  
44400 104700 Size: 172+ ct – 6 lb (2.7 kg) carton

Distributed by: Gorton's, Gloucester, MA 01930

List Varieties of Fish Used in Product: Minced Pollock

Total Weight per Portion of Uncooked Product (as purchased): 0.54 oz per stick

Weight of Raw Fish per Portion: 0.27 oz raw fish per stick

Ounces Equivalent Meat:

0.27 oz x 75% cooking yield = 0.203 oz per stick x 3 sticks/serving = 0.608 oz/serving  
rounds to **0.50** servings of equivalent meat.

Grain equivalent:

$(3 \text{ sticks} \times 0.54 \text{ oz} \times 17.20\% \text{ breadings} \times 97.6\% \text{ whole grain/enriched flour}) \times 28.35\text{g/oz} = 0.48 \text{ servings}$   
16.0 g creditable grain per serving

$(3 \text{ sticks} \times 0.54 \text{ oz} \times 14.60\% \text{ dry batter} \times 76.53\% \text{ whole grain flour}) \times 28.35\text{g/oz} = 0.32 \text{ servings}$   
16.0 g creditable grain per serving

0.48 servings bread + 0.32 servings batter = 0.80 oz equivalent grains = **0.75 oz equivalent grain**

I certify that the above information is true and correct and that **Three fried breaded minced fish sticks (0.54 oz. each) provide 0.50 oz equivalent meat and 0.75 oz equivalent grain for Child Nutrition Meal Pattern Requirements.**
